THE MARIO. -- THE DIFFICULTY SPITLED -- We are very much gratified to be able to state that the subject of the scall carriage between here and Chicago has been arranged, and that we shall receive the Eastern november, by the railroad We do not lead the terms of the arrangement nor, we procume, do the public care to learn them, it bring sufficient, as well as very satisfactory, to know that hereafter we shall enjoy one of the principal lanellin expected from the completion of the Lake Shore R. \$33.818.52 Once let'this read be opened to Watertown, which will be done in the course of the summer, and the great bulk of the business done by teams on the plack road will come to the milroad. Some idea of the extent of that business may be obtraned from the fact that, as we are informed, the tolls upon the plank read for the first weeks of May were about \$1,000.

The "Shanon of Degistature"-Sundry at tieles, under this slang heading, have been going the rounds of the Borstow prints, within the last it we weeks; the arm of the writers being to transfor the responsibility for the corruption, mismanagereent and extravi gance, which have characteruzed the administration of our State affiles, from the shoulders of "Larstow and the Balance" -the guilty parties- to the late Legislature. The Macison Fatriot, a democratio paper, has taken up this subject in turn, and discourses thereon is an article which we copy to day and commend to the readers' attention, as a truthful and unanswirable exposition of the facts.

FARMER AND MILLERS BANK. We learn that the proposed increase of \$150,000 to the Capital Stock of the Parmous and Millers' Bank of this city has been nearly effected. Mr. E. D. Houren, the President of the Bank, has recently returned from a visit to New York and New England where he succeeded in obtaining subscriptions to the amount of \$1100,000 to the Davital Stock .--With this a kittion the capital of the back will means of usefulness and of affording facilities fo the rapelly expender g business of our city. as called to meet at Sr Paul on the 25th of July, for the purpose, as expressed in the call, "of nominating a Cantidate for delegate in Congress, of declaring and inforcing the principles and platform of the Republican Party of Minnesota . and of taking such action and establishing such systematic organization, as shall ensure the triumph of the sacrat, and beneficent principles es at the foundation of all good government."

Body Porno -- Mr. SAMUEL SERTOR of the town of Lake, informed us on Saturday night that he had micked up the body of a mun upon the lake shore, on the South Point about 4 miles from the city. It is supposed to be that of a man of about 40 years of age, and to have been in the water second days. The hody had pocost or vest in on it, but white cotton shirt and flannel undershirt, and pantaloons, checked with green and blue checks about an inch square. PROBLETORY LICEOR LAW IN ILLINOIS -The

question of probitt in is to be decided in the state of Himora to-day, by a vote of the people on the acceptance or non-acceptance of the law passed list winter. The vote will be a large one and the result is looked for with great interest. We see indebted to Hop Chanks Bil-

Lucy Stone and her husband is commented upon pretty freely by the eastern prace. The Portland ddorriser says, hed this "quit claim agreement" come off within he editorial discose, he would have chronicled it thus.

Milwaukee and Horlcon Railroad.

We publish below a communication from orrespondent at Stevens' Point, and invite the Lake Superior, we can only say that such an dea is entirely new to us here, and that we look upon the numer as one of the shrowd games of the particular friends of other rouls, to gain favor for their rival projects. We have no knowl edge of any such plan being ever dreamed of by be Directors of the M. & H R R. Co ; but behere that it is their desire and intention to push straight on to Stevens? Point at the earliest possible day. Our friends there must be aware of the great difficulties which have attended the seentiation of all kinds of railroad securities during the past year. Nevertheless, the Directors of the Company have already done a great dual of work with the means at their command, and we think that there is no doubt that they will have their road to Berlin ready for the non, by the time the La Crosse R. E. resolus Horicon, which will be before the 1st of October. On this point, we have no doubt that the President of the Company, will give definite information

Our correspondent must have read the Sentine. to very little purpose during the last two years if he supposes that we do not fully appreciate the importance of an icomediate rational connection with Stovens Point and the country whose business conters there, and of reaching out an iron arm to the fine agricultural country which hes between us; for we think that we have within that time occupied more space in attempts to set forth to our readers the resources of that out try, and the advantage to be derived to us from a railroad connection with it, than for any other route. Nevertheless, the interest of the subject, and our zeal for the accomplishment of the work, are not exhausted, and we shall contions to work in our way, until our hopes are ealized, and our correspondent is heartily welume to the use of our celumys in his efforts to

sid this important enterprise Our business men have but to look to their ledgers and reckon up the large amount of busicess which they even now transict with the region of country through which, and into which this toute passes, to form some idea of what that business will be when the road is completed; a vast ousiness which they may secure, beyond peradventure, by immediate effort, or which they may lore by soicidal neglect. This is a wide-awake age, gentlemen ' and we can't "keep moving' if we do not relish being run over :---

Milwankee and Horicon Railroad. Massas, Empore :-- I have so often heard the quistion asked lately as to "what has become of the Milwankee and Honcon Railroad ?" that I am tempted to ask the liberty of your columns as a machine to put the question myself, and to offer a few auggestions in regard to the matter Borrething over a year ago, the stock Agent of the Company visited us and pineared the taking of stock in this and the adjoining towns to the amount of about \$75,000, and laft with a promise to visit us ogaza-since which time we hear nothing from him, or the Company, or its operations, except vague rumers that they have determined to run the road from Berlin direct to

Lake Superior. If this is the case, it would be

ur means and energies on some other road. The fact is, Mesers, Editors, that the Milwaukee and Horison Railroad has many friends here it is in fact the favorite road-among the many which are politing towards us-with our business men. There are many reasons for this .-In the first place our commercial telations are greater and more intimate with Milwauken than any other western city, as she is receiving the majority of our trade. Again, we have a little state pride-would rather contribute towards the ulding up of a commercial metropoles in our

be \$250,000. This will materially increase its Madison & Belou Bailroad, it would be the route

reads. But if Milwaukee is determined to the second of the score we know it the better; because in a letter to Lieut. Our. Raymond, directly contradicts the report that has been builty circulated the immense amount of business that is done in that is has abandoned in a dea of making bot ns off, the sooner we know in the better; because the valley of the Upper Wisconsin, cannot be air serre the purposes of steam; and says that on transacted long in these fast times without the the contrary he is more than ever satisfied of the soundaries of the principle and is now building a sid of a Railroad-a fact that is daly appreciated in certain other quarters if not in Milwankee. The mon at the head of the Madison and Lake

Superior Reilroad are wide awake, stirring men. poused by the Republican Party, and which lie and know whereof they act. So, 100, the Contrai Wisconsin Railroad travenses a section of

on the Wolf, the meagre business of which is as was taken with a single hook and line. Over 40 nothing compared to that of the Wisconsin-be- of the lot were cought by Judge A. D. Smith, who they on the figure slave law, or bobone for both former - iwandy accurred to you; while that of the latter you will inevitably lose unless you have a muscion with us by Ruilroad, and that very

Why, gentlemen of Milwaukeo, wo are a growpopulation doubling annually, -we are only in you, but which you don't seem to realize, also you would not be quarreling about contiguous and parallel roads in the extreme southern portion of the state, while a more shrowd and wary rival runs off with the trade of the whole central and northern. There is much good school and reasoning in the articles of "Wisconem" which ately appeared in the Sentinel, in reply to a "La-Orome Stockholder."

I will close by adding that is case the Milwaykee and Herison Rudrond Company would comsetemetricad to Berlin in time for the fall usiness of 1855, it would get the transporting of all the goods and merchandise for this market, as the present route by which they are transported from Sheboygan via Fond do Lac and Oah. kash, a anything but a desirable and satisfactory one to us. And further, that the extent and mount of business accruing to the road from this quarter should in my omnion, induce the Company to extend it to this point with all pos-

sible despatch.

Respectfully yours, Oan of the Business May or Syntans Point Stevens Point, May 29th, 1855.

CITY MATTERS. POLICE COURT -- June 2nd

erore Clinton Walworff, ESQ., Police Itiation Dispensing a Cacwo.-A man named John Abernethy was tried for an assault upon Andrew Lienbart, on the 25th of May. The case was: aubstauce, that a row occurred on the midawalk near defendant's bouse, and that the defendant tried to disperse the crowd, taking hold of th complainant by the collar and teiling him to go away-that the row was all settled and he must go away as well as the rest. A witness name Casey, who was called by the prosecution, testi-

fled as follows :- 'I was down to Mr. Callagher's and I bearn that there was two Potch women after taking old Jones to jail, and I thought I might as well see the fun as the rest to them."~ This witness as well as others, stated that the defendant had been the means of settling the difficulty, and was engaged in quieting the crowd, and when so engaged took hold of the complainant telling him to leave and go away. Judgment of the Court, not guilty. A warrant was issued against George W Nick.

erson, charging him with an assault and battery upon Robert Hill. The parties were considerably 'rosea'' distributed about an otherwise good looking face—the other had the marks of several ing like ineffectual attempts at gauging. The defendant was, of course, not ready for trial, and an adjournment was granted till this morning.

Cincert Count .- In the morning (Saturday,) Catharine Egan was sentenced to six months imprisonment in the State prison. The court proseded to the disputal of Chaptery cases, adourning in the afternoon.

And a second interesting the performance was eminently successful and received enthusiastic applause from an intelligent audience. Her style of reading is original, and very effective, combining the impassioned expression of the stage with the chaete and intelluctual power of didactic elecution. We are especially struck with the variety of characters in which she showed distinguished excellence; has is equally at home in the tragic and consic role. Her soudering of a scene between Macbeth and Lady Macbeth was sufficiently intense to do justice to the darkest passions, while her gay and graceful ease in Sir Peter and Lady Teazle, gave a highly favorable specimen of her talent in light comedy. The success of Mrs. Macraedy in he dramatic readings, is so great, that we should no be surprised if it entired bor in a great mesory from the boards.—[N Y. Spirit of the Times.

We publish below a communication from orre pundent at Stevens' Point, and invite the seriest attention of our residers thereto. With regard to the approhension of our friends in that atraight on to Stevens' Point at the earliest possible day. Our friends there must be aware of the great difficulties which have attended the neestation of all kinds of failroad securities during the past year. Nevertheless, the Directors of the Company have already done a great deal of work with the means at their command, and we think that there is no doubt that they will have their road to Berlin ready for the non, by the time the La Crosse R. this point, we have no doubt that the President of the Company, will give definite information Our correspondent must have read the Sentine's to any little purpose during the last two years if he supposes that we do not felly appreciate the importance of an immediate railroad connection with Stevens Point at different country whose business conters there, and of reaching out an iron arm to the fine agricultural country which he seewed us; for we think that we have within that time occupied more space in aitmosts to set forth to our readers the resources of that country, and the advantage to be derived to us from a railroad connection with it, than for any other route. Neverthaless, the inferest of the subject, and our zeal for the accomplishment of the figures of the state in good condition—that there from an Secretary had reported the subject, and our zeal for the accomplishment of figures of the state in good condition—that there tober. Why, gentlemen of Milwaukee, we are a growing stirring people up here.--our business and population doubling annually, -we are only in c centre of the state The state is not bounded on the north by the Fox river, a fact which the General (of the Pinery) has often reiterated to rou, but which you don't seem to realize, else you would not be quarreling about contiguous and parallel roads in the extreme southern portion of the state, while a more shrowd and wary rival runs off with the trade of the whole central and northern. There is much good scuse and reasoning in the articles of "Wisconem" which lately appeared in the Sentinel in reply to a "La Orosse Stockholder."

The Governor in his message took occasion to rem to and highly extot the fulness and accuracy or the Reports of the Balmess afficies. Upon a riving these piecious and extremely lucid productions, it was found that not a column of figures had been accurately copied from the records, or accorately footed—not a single general rule of any importance correctly stated. The whole budget in every casential particular was in so and marshable, so much so that the officers to meet very casential particular was in meeting before the adjournment, admitted the late, and charged the errors on their clerks!

With such a stait the session got under way.—
It was found that the Forty hid sold about all there our lands in the Souty—three-fourths of it. · re oul lands in the State -three-fourths of it

The Governor and Secretary had reported the finances of the state in good condition—that there finances of the state in good condition—that there a ould be an excess in the treasury! Investigation showed that they had suck the state in a single year \$175 000 in debt!—14,000 had been at dash contingent fund, and on a salary of \$1,250 the Governor had drawn and used \$1,550.

Massa. Entrote:—I have so often heard the quistion asked lately as to "what his become of the Milwaukee and Horicon Railroad!" that I am tempted to ask the liberty of your columns as a maduun to put the question myself and to office a few soggestions in right to the matter. Something over a year ago, the slock Agent of the Company visited us and piccured the taking of stork in this and the adjoining towns to that us again—since which time we hear nothing from him, or the Company; or its opportions, except vague rimors that they have determined to run the road from Berlin direct to Luke Emperior. If this is the case, it would be treating us with no more than common civility to inform us of the fact, so that we may expend our means and energies on some other road.

The fact is, Messas, Editors, that the Milwaukee and Horicon Railroad has many triends here,—it is in fact the favorite road—among the many which are pointing towards us—with our business men. CIRCUIT COURT .- In the morning (Saturday,) Cotharine Egan was sentenced to six months imprisonment in the State prison. The court promeded to the disposal of Chancery cases, adourning in the afternoon.

DRAMATIC READINGS .- We remind our readers that Mrs. Macreaur is to give an entertainment at Young's Hall this evening, of an unusually attractive character. Some idea of bor talent and success may be formed from the nunexed extract from the N. Y. Epirit of the Times-very excellent authority-and in addition to the Dramatic Readings To are promised some excellent music Believing that Mrs. Macranay is in all respects deserving of a generous patronage, we hope to see a full attendance at the Hall to-night. Accident.—A serious accident accurred on Monday last at Fort Athroson. The circumstances as nearly as we have been able to learn them were as followe:—Mr. Joseph Underwattr, accompanied by Mrss Dehn Whisple, both of Hebron, was striving a spuited horse unto town sometime during the fore part of the day, at which time the "Great American Circus" was preparing to exhibit, causing all sorts of sights and sounds which are common on such occasions, at which the horse took hight, turned some short corners, became unmanageable, whereopon Mr. Vandewater thought it advisable to jump from the carriage, and in se doing, tractured the hone of one of his legs. The horse ran a short distance, threw the young lady from the curriage, her chest striking upon the top of a picket fence, upon which she remained suspended until removed by those present. Her internal injuries, were thought to be serious—cursed inneract. His for its considers the case a doubtloi or e. The fracture of the young man's leg was not of the worst.

Let the correspondent of the Boston Journal go through one half the fatigue and trials which this veteran has, from the hely contested battle fields of the war of 1812 to the closing triumphs of the conquest of Mexico,—to any nothing of a mangled shoulder in the first war and a serious injury to the other since the last war—and he may deem himself a lucky man if he can carry as erect a form as this venerated chieftain.

* Far different "campaigns" from that of the Presidential one have changed his appearance from what it was forty years ago. The correspondent of the Boston Journal must be sadly ignorant of the history of the country and of the sturring events to which General Scott has been pre-eminent during that period, to attribute to an election campaign any alteration in that externals ampassarca.

It happened also that at the very time the general was rugaged with a hoard of officers, regulating the perplexing details of new military posts along our newly acquired tornicates, a work of reat kalor in making the most of an army of small dimensions. The result of the election came in the midet of that work. Now, what did a leading member of that bend volunteer to say to the writer of this? He was a political opponent, too, of General Scott. "Well," he said, or to this effect. I have never med a minute so eignelly balanced as that of General Scott, the work before the board was never for one moment obstructed or interrupted; the general continued structed or interrupted; the general continued the structed or interrupted; the general continued his labor the day after his defeat was known as on the day before, and no one would suppose that such an event as a Presidential election had occurred." great value. The most important of them is, that THE SLAVER CREATION IS THE FARMONT AND VITAL QUESTION OF AMBRICAN POLYTICS.

We have attentively read the election debates in the Virginis papers for three months past—

We know that the democratic party there was asved from rum, by the successful infusion into the masses, of the suspicion that Know Nothingiam was a disguise of Northern Abolition. The acts of the Massachusetts Legislature, from the election of Seretor Wilson down to the multification of the Fugitive Slave Law, furnished the Virginians with seeming proof of the charge to that effect openly made by the democratic press, and by the orations who stumped the state. Indeed, Massachusetts is responsible for the destriction of Know Nothingsem as a National movement She made it impossible of his input in alave-labor soil.

Wise's success is a State triumph of Slavery it plucks out of the area of Federal Politics an element that promised to take root there, and to introduce variety and confusion in the issues.

The Teachings of the Virginia Election.

The result has justified the correctness of the views expressed in The Dimogram, of the relative atrength of the two principles atraggling for mastery in the politics of the Oil Dominion, Knog-Nothingiam has been grushed, and the Demograpy of the Righmond Dynasty and the Dimograpy of the Righmond Dynasty and the Statery Extensionals has from phod. And yet it is astonishing to us that the Press of this State so almost unanimously expected Wiser's determined.

State so almost unsulmously expected Wise's desert.

The practical teachings of this result are of great value. The most important of them is, that THE SLAVERY QUESTION IS THE PARAMOUNT AND VITAL QUESTION OF AMERICAN POLITICS.

We have attentively read the election debates in the Virguins papers for three months past—We know that the democratic party there was saved from ruin, by the successful infusion into the masses, of the suspicion that Know Nothingism was a disguise of Northern Abolition. The acts of the Massachusetts Legislature, from the election of Seretor Wilson down to the nullification of the Fugitive Slave Law, furnished the Virguians with seeming proof of the charge to that effect openly made by the democratic press, and by the orators who stumped the state. Indeed, Massachusetts is responsible for the destriction of Know Nothingian as a National movement She made it impossible of his ripon is alave-labor soil.

Wise's success is a State trainplus of Slavery

increments a law in the control of the right is alave-labor soil.

Whee's success is a State triouph of Slavery It plocks out of the area of Federal; Politics an element that promised to take root there, and to introduce rariety and confusion in the issues.

Now and henceforward for years and gags these lauses are narrowed down and reduced to the one great question between Ferrior and Spay. This has got to be tried out in fival judgment and execution, and execution executed. The politician or the civilian who can not see this, is blind.—[Buffalo Democracy. The Sandwick Islands.

The Sandwich Islands.

The Minister of Finance of the Sandwich Islands, in his sunsal report, says the receipts for the year 1854 were \$393,984.75, the disbursements 318.621.19; leaving a belience on hand of \$75,367.56 The imports for the year, were \$1,396.786.24; the exports, \$585,122,67; excess of imports over exports, \$581,263.57. POWDER ROOF PROOF PARK & Vault Locks! eminent public men, is found in their effects upon citis!

These Pills, the result of long investigation and study, see offered to the public as it to best and most complete which the present state of medical arisance can select. They are compounded not of the drugs themselves, but of the modicinal virtues asky of very father remaining and combined together in such a ranner as to control the best results. This spetch of composition for an disclars, has been found it for the remaining of the control the best results. This spetch of composition for an disclars, has been found it for the composition for an disclars, has been found it for the composition, were you do not include a produce a mount disclars. The reason is perfectly obvious. While by the old mode of composition, very modicious is bredened with more or leas of actimations and injurious qualities, by this each individual virtue only that la desired for the curative effect, is present. All this liners and obnusious qualities of each substance can played are left perfind, the curative strices only being restated. But the reference is set of evalent the effects should prove at they have proved more purely compiled, as Deskr in sHELP HARDWARS, Builders Trimmings and Carpenters Tools.
